

# The *Movement* Disorder Society

## **Feature Article Review Guidelines for Health Professionals (Non-Physician) Contributors**

From time to time, the *Movement* Disorder Society Health Professionals (Non-Physician) Special Interest Group accepts reviews of published articles related to Movement Disorders-related specialties. We welcome your ideas and contributions to this ongoing project and have set forth some guidelines for contributors.

In order to submit a Featured Article Review to the MDS Health Professionals Webpage, please ensure that the article meets these requirements:

1. Focuses on one or more of the involved healthcare disciplines:

Speech/Language Therapy, Occupational Therapy, Physical Therapy, Nursing, Social Work, Genetics, Dietetics/Nutrition, Clinical Psychology and Neuropsychology, Sexual Health

Articles about interdisciplinary or interprofessional education and practice are welcome.

2. Is not more than 500 words.

3. Includes the abstract and references.

4. Cites title, author(s), name and date of publication, name of publisher, and publisher's contact information (ie link to website).

5. Review may include an optional podcast. Attach the podcast to your written review in an email.

6. Include a short biosketch and a digital color image with your submission. For questions, or to send your suggestions for consideration, please email:
