2nd Pan American Parkinson’s Disease and Movement Disorders Congress
June 22-24, 2018 - Miami, FL, USA

About The Congress
The 2nd Pan American Parkinson’s Disease and Movement Disorders Congress will be an opportunity to discuss relevant issues in our field that are specific to the MDS-Pan American Section (MDS-PAS). Dialogue will occur through plenary lectures, workshops and poster sessions. This will also be a tremendous opportunity for MDS-PAS members to network with colleagues from different parts of Pan America.

Primary Organizers
The International Parkinson and Movement Disorder Society's Pan American Section (MDS-PAS) is the main organizer of the PAS Congress. Formed in 2009, the section reaches out to doctors, researchers and healthcare professionals throughout the Americas and the Caribbean. Four national organizations have formal relationships with the Section as Affiliate Member Societies.

Purpose
The purpose of the PAS Congress is consistent with the objectives of the MDS-PAS, which include:
- Facilitate communication between clinicians and researchers within the region
- Disseminate updated knowledge about movement disorders
- Improve quality of life and independence of movement disorders patients and caregivers
- Promote and facilitate research collaborations in Movement Disorders
- Expose clinicians, researchers and healthcare professionals in the region to Movement Disorders initiatives and in so doing, encourage their membership in the MDS-PAS

Target Audience
The target audience of the 2nd PAS Congress is clinicians, researchers, medical residents, medical students and other non-physician health professionals who have an interest in the current research and issues in the field of movement disorders that are specific to the Pan American region. We anticipate 700 delegates.

Scientific Program
The 2nd PAS Congress covers the whole spectrum of Parkinson’s disease and movement disorders from basic science to clinical practice and consists of symposia, plenary sessions, poster presentations and parallel sessions. Participants will be invited to submit abstracts relevant to the various fields associated with Movement Disorders.
